# CONDITIONS OF THE FORECAST FOR 2023-2024

- UNDER WAR CONDITIONS, FORECAST IS A PROCESS, NOT A RESULT
- THE PROCESS OF FORECASTING IS CARRIED OUT IN REAL TIME under conditions of a high degree of uncertainty
- ASSUMPTIONS OF CURRENT AND FUTURE CONDITIONS, PHENOMENA, AND EVENTS CHANGE RAPIDLY, resulting recalculations
- ALREADY DEVELOPED FORECASTS ARE CONSIDERED, mostly, AS CONDITIONAL GENERALIZED CHARACTERISTIC OPTIONS with significantly wider ranges of deviations from the values given in them than in peacetime forecasts
- THE FORECASTS ARE DEVELOPED UNDER SCENARIOS WHICH DIFFER IN MILITARY CONDITIONS AND SPEED OF THE RECOVERY PROCESSES
